

# The Tripod: Fellowship

In Phi Sigma Pi, fellowship is an important part of Chapter culture that permeates virtually every aspect of business and interaction. In addition to a fraternal culture that develops friendships, it also fosters a sense of teamwork and camaraderie that provides for collaboration, innovation and fun. When you join Phi Sigma Pi, you become a Member for life. Fellowship unites Members with passion and dedication to maintain a commitment to Phi Sigma Pi long after graduation.

Fellowship is officially defined as "people with the same purpose, experience, or interest." *The Ritual* says that Fellowship is the "Flower of our Brotherhood, bearing fruit in service to human-kind." The knowledge gained through working closely with others towards common goals builds Fellowship. Any activity that promotes Fellowship teaches Members about one another; leading to stronger working relationships and a stronger Chapter.

**Self-improvement that goes out to others**

**United we more than double our strength**

## Instilling Fellowship in Your Chapter

- Include an opportunity for Members to get to know one another better before or after every Chapter Meeting
- Have Members share the activities and events in which they are involved so that other Members can come out to support them in letters
- Incorporate formal recognition of Member contributions into Chapter events
- Encourage Members to invite friends from outside the Fraternity to open events like Recruitment
- Include a "Big/Little of the Week" on social media
- Establish a Chapter Subrosa Fund to help Members in need
