

The Tripod

Phi Sigma Pi is built upon a Tripod of three ideals: Scholarship, Leadership and Fellowship, which support our Fraternity's ultimate goal of improving humanity through social service. This Tripod provides direction in our organization, our programming and in our actions as Members. It is through the Tripod, and the three ideals encompassed within, that Phi Sigma Pi seeks to fulfill its purpose. Through their contributions to achieving our goals as an organization, Phi Sigma Pi Members become more balanced individuals, ready to move into society with a unique knowledge and awareness of themselves and the society around them. It is through the Tripod that Phi Sigma Pi Members become stronger people working towards a stronger community.

Scholarship

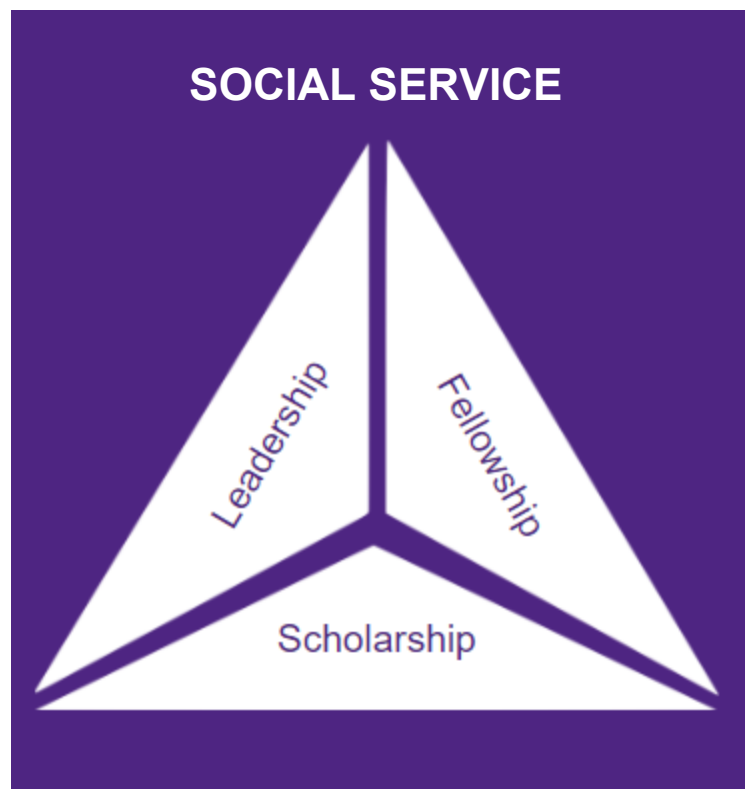

Scholarship is the knowledge resulting from study and research in a field, or the methods, discipline and attainments of a scholar or scholars. It is the acquisition and dissemination of information and knowledge through scholarship.

Leadership

Leadership is the capacity or the ability to lead. It is through the application of professional skills and the fostering of leadership qualities by promoting and advancing the welfare of humanity that others become stronger and become able to work towards a stronger community.

Fellowship

Fellowship is a close association of friends, friendship or comradeship. It is the fostering of non-discriminatory, fraternal fellowship within our ranks.
