More
than a
Membership

Is this organization legitimate?

Yes, we are a legit nonprofit organization. Now, of course, we would say that, but we are 105 years strong and based on 120+ campuses and geographical locations throughout the United States.

Additionally, we are proud to have over 55,000 inducted Members with the mission to **improve humanity with honor through Scholarship, Leadership and Fellowship.**

What are Membership requirements?

First, we are an active organization. We expect our Members to always be learning and to always be active in their communities.

Second, upon approval of your one-page application, the two main Membership requirements are:

1. Complete the Member Program (our online education program)
2. Attend an Induction Ceremony (*performed online due to COVID*).

What is Phi Sigma Pi's stance on diversity, equity and inclusion?

To be clear, Phi Sigma Pi is committed to being a diverse, inclusive and equitable organization as we improve humanity with honor.

We are a values-based organization built upon Scholarship, Leadership, and Fellowship. Equally as important are the values of respect, inclusion, and tolerance.

For more information please visit: phisigmapi.org/dei

What do I get?

What each Member takes away from Membership is different. But, we can share there are basic tangible benefits such as:

- Customized Membership Certificate
- Membership Pin
- Access to a leadership certification and specialization program
- Availability for a letter of recommendation
- The opportunity to wear graduation cords
- and much more

What makes Phi Sigma Pi special?

We would have to say our unique and diverse Members. We are committed to providing the opportunity of the service-learning model to improve the lives of our Members and our communities. This is accomplished through developing a nation-wide community, offering personal and professional opportunities for the purpose of advancing others. That's what makes us special.

Are there Membership Fees?

Yes, as a nonprofit organization that provides opportunities to advance humanity, there is a membership fee for our ever-growing resources.

When joining directly through the National Office the membership fee is \$299 (one-time fee). Please note that eligible students beginning this process between September 1, 2021 and December 1, 2021 can apply for a \$50 scholarship.

Are there other ways to gain membership?

Yes, if there is an established Chapter on your campus already - great! Please contact the Chapter directly. Check out our Chapter list at:
phisigmapi.org/FindaChapter

When will I hear back after submitting my application?

Please allow for 5-7 business days.

Want a sneak peek behind some of the scenes?

Check out: core.phisigmapi.org and learn.phisigmapi.org

Is this an honor society?

Phi Sigma Pi is an active professional organization both locally and nationally. We are the perfect blend of a service organization, honor society and a social group. We pride ourselves on bringing additional experiences to our Members beyond what traditional societies are designed to provide.

How long will the Member Program take?

A great aspect about joining Phi Sigma Pi is that the Membership Program (education program) is that it is completely up to you once you register.

We understand that flexibility is key. The program is designed into 5 learning components and 1 activities component. The learning components have 1-5 sections that range from 3 - 20 minutes each.

Looking to establish a Chapter on your campus?

That is the initiative we at Phi Sigma Pi highly value. Phi Sigma Pi Membership has been designed as a three-part approach for establishing a Chapter on your campus. The steps for establishing a Chapter are; 1. Individuals on your campus complete the Membership Education Program, 2. Students expressing interest and who have completed the program will work alongside the National Office and other campus Members to prepare a petition, 3. Petition the school for recognition.
